

Livi lakho libalulekile

Using research to create a healthier nation

Dlala indzima elucwaningweni lwetfu lwavelonkhe lwetempilo wente kutsi nawe livi lakho livakale.

Sifisa kwati kutsi wena yini loyicabangako. Ungulomunye wemindeni lekhetsiwe kutsi ibe yincenye yelucwaningo lolutako lwavelonkhe nge-HIV kanye nendlela yekutiphatsa. I-Human Sciences Research Council (HSRC) ngiyo leyengamele lolucwaningo, lolugubha umnyaka wemashumi lamabili ludlala yalo indzima ekuhleleni imigomo lelawula tetempilo eNingizimu Afrika. Inhloso lenkhulu ngalolucwaningo kucokelela imininingwane letawusita ekwakheni imiphakatsi lephilile nalenemphumelelo Lolucwaningo ludzinga emavalontiya kantsi imininingwane yaloyo naloyo loyincenye itawugcinwa iyimfihlo

***kutawulandzelwa yonkhe imigomo lebekiwe ye Covid-19.**

Khuluma natsi nge-WhatsApp: 073 505 5078

***Gcina lenombolo eluhlwini lwetekutsintsana. Vula inkhundla yekucoca bese ubhala "hi" bese uyatfumela**

Naku lekumele ukwati ngalolucwaningo

- Lolucwaningo lucala nga **November 2021** kuya ku **30 June 2023**.
- Ungulomunye wemindeni lengu **32 000** kulengu **2 144** lechamuka kuma-small area layers (SALS) lekhetisiwe eveni lonkhe, ngaphandle kwekulandzela imigomo letsite, kutsi ibe yincenye yaloku.
- Ungulomunye walabangu **100 000**, labancane nalabadzala, lokulindzeleke babe yincenye yaloku.
- Lolucwaningo lutawutsatsa cishe emaminithi lengemashumi lamane nesihlanu kuya esikhatsini lesingange li-awa umuntu ngamunye.
- Loku kutawentiwa ngelulwimi wena lotikhetsela lona.

Nawufisa kwati simo sakho macondzana

ne-HIV nakwentiwa lolucwaningo:

- Simo sakho utawusati khona ngaleso sikhatsi
- utawutfola luhlalo lwekuhlolwa iHIV lolunika imiphumela khona ngaleso sikhatsi, kwelulekwa ngekwegcondvo nge-HIV lokwenteka ngaphambi nangemuva kwekuhlolwa, utfunyelwe nalapho longakhona kunakekelwa khona, nakunesidzingo.

Our survey questions will be based on the following

Iminingwane ngenndeni (kutsi mkhulu kangakanani)

kutiphatsa kwebantfu endzaweni lowakhe kuyo

Betindzaba netekuchumana

umlandvo wakho ngetemacansi

kuhlolwa i-HIV

simo sakho se-HIV

sifo selukhwehlekhehle

kuhlalisana kwebantfu endzaweni

lwati nge-HIV nendlela loyibona ngayo

kunakekela nekwelashwa

i-Covid 19 nekuhlolwa yona

letinye tindzaba letiphatselene netemphilo njengekusokwa kwalabadvuna, ludlame, tidzakamiva, kunatfwa kwetjwala nesimo sengcondvo

Ekuphendvuleni kwakho imibuto kubalulekile kutsi usatise ngemphilo yakho, uphila kanjani, indlela lotiphetse ngayo, simo sakho semphilo nalokunye. Loku kutawusipha iminingwane lebalulekile ngesimo sakho se-HIV, ngemuva kwekuba utsatfwe ingati. Loku kwentiwa ngekukuhlaba kancane ngenyalitsi ye-lancet emunweni kute ingati iyocwaningwa e-lab. Ngaphandle kwekutsi utsatfwe ingati, kuba yincenye kwakho kulolucwaningo kutawube kungakapheleli. Kulamanye emakhaya sitawucela kutsatsa ingati kute sihlole emasotja emtimba lalwisana ne COVID-19. Sitawube sisenzaweni yangakini liviki lonkhe. Nawufisa kubhukela sikhatsi lesitako nobe nawunemibuto ngalolucwaningo, ukhululekile kutsi uchumane natsi:
