The Human Sciences Research Council (HSRC) and the Institute of Justice and Reconciliation (IJR) would like to invite you to the second dialogue of the two-part series titled 'Zimbabwe Decides 2023: Issues and Prospects'. Hosted by the HSRC's Africa Institute of South Africa, the second dialogue will focus on the SADC Election Observer Mission preliminary report, which indicated that the elections had not met the national and regional standards for free, fair, and credible elections. Part one of the dialogue series saw lengthy deliberations on the matter of free, fair, and credible elections. The second part will delve deeper into the post-election analysis.
