

# WORKSHOP INVITATION: What data is needed for cities to thrive?

Insights from the UK's Office for National Statistics

12 & 13 March 2024

08h30 - Registration

ISibalo House, Koch Street, Salvokop, Pretoria (in-person only)  
Click [here](#) to register

**The Human Sciences Research Council, National Treasury and UK-FCDO together with their partners, the Metros, SARS, UNU-WIDER, StatsSA, SALGA, SACN, Swiss-SECO and UFS invite you to:**

Join us to explore how local data can be leveraged to support more inclusive and vibrant city economies with insights from the UK's Office for National Statistics

## Highlights

- Identify data gaps in the SA local ecosystem
- Inspiration and training from the UK's Office for National Statistics
- UK's approach to evaluating impact of policy on local economies
- Case studies from eThekweni and Cape Town in building economic data for decision making
- Learn about the Spatial Tax Panel produced by SEAD-SA
- Brainstorm future topics for the SEAD-SA Community of Practice

**SEAD-SA  
Community of  
Practice**  
Data for inclusive  
and vibrant city  
economies

## About the SEAD-SA Community of Practice

The aim of the SEAD-SA Community of Practice is to generate new knowledge and exchange of ideas alongside better practice in strengthening the economic performance of South African cities. Our purpose is to widen the circle of researchers, policymakers and practitioners interested in the economy of cities by building a vibrant network of enthusiasts and experts.
