

HUMAN SCIENCES RESEARCH COUNCIL

BID DESCRIPTION: APPOINTMENT OF A SERVICE PROVIDER(S) TO COLLECT DATA FOR THE 2024 ELECTION SATISFACTION SURVEY (ESS) – AND 2026 ELECTION SURVEY ROUND

BID NUMBER: HSRC/16/2023/24

1. HSRC BACKGROUND ELECTION SATISFACTION SURVEY (ESS)

The Human Sciences Research Council (HSRC) is seeking to appoint a service provider to collect data for the Election Satisfaction Survey project using tablets that will be provided by HSRC. Below is the project background and detail.

The Human Sciences Research Council (HSRC) has been commissioned by the Electoral Commission of South Africa (IEC) to conduct an Election Satisfaction Survey (ESS) relating to the 2024 National and Provincial Elections. The intention of the 2024 ESS is to determine the perceptions and evaluations of a representative sample of voters regarding the free and fairness of the electoral process. A further aim of the study is to assess the operational efficiency of the Commission in managing the 2024 National and Provincial Elections, as well as to determine the experiences of voters on Election Day.

The results from this study will be used by the Commission to declare the elections free and fair. This study will be conducted on Election Day (29 May 2024) at 300 randomly sampled voting stations around the country. In essence the service provider will have to employ Data Collectors to visit the sampled voting stations in the specific province. Each data collector will conduct 50 interviews with voters as they exit the voting station, spread out across time intervals during Election Day. The service provider will be responsible for all the logistics associated with getting the Data Collectors to the voting stations. Below is the number of sampled voting stations per province and cluster. The sample of Voting Stations that must be visited has not yet been finalised, but a previous sample is attached as an example that can be used for budgeting purposes (see Annexure A – 2021 Voting Station Sample). Please note that the final sample will be provided to the successful bidder(s), though the geographical spread will be similar in nature to the voting station sample example provided in this bid document.

Table 1: Sample design: Number of voting stations per province

Province	No. of Voting Stations
1. Western Cape	31
2. Eastern Cape	47
3. Northern Cape	20
4. Free State	26
5. KwaZulu-Natal (Middle- Lower socioeconomic cluster)	25
6. KwaZulu-Natal (Upper- Higher socioeconomic cluster)	24
7. North West	28
8. Gauteng (Middle-Lower socioeconomic cluster)	20
9. Gauteng (Upper-Higher socioeconomic cluster)	19
10. Mpumalanga	24
11. Limpopo	36
TOTAL	300

Please note that in the cases of KwaZulu-Natal and Gauteng, the province has been split into two clusters along socio-economic status lines. This takes into account the larger population shares represented by the two provinces, as well as diversity along linguistic and other lines.

2. SCOPE OF WORK

The data collection will be done using electronic devices (tablets) and Data Collectors will have to visit each of the selected voting stations before elections day to sort out permissions and other logistical arrangements. All the Data Collectors should be under supervision on Election Day, with a clear communication protocol and strategy in place for rapidly responding to any challenges arising on the day. The service provider should use the example sample provided in Annexure A to work out the 2024 and 2026 budgets, using the budget template provided – **Annexure B - Budget Template –ESS 2024, ESS 2026.**

One-day training sessions will be provided for all Data Collectors by the HSRC in selected areas as set out below. The service providers are required to budget for all the logistical arrangements in terms of getting all the Data Collectors to the venues and accommodating them. The HSRC will provide venues and lunches during training.

Table 2: List of selected training venues per province

Province	Training to held
1. Gauteng	Pretoria
2. Mpumalanga	
3. Limpopo	
4. North West	
5. Northern Cape	Bloemfontein or Kimberley
6. Free State	
7. KwaZulu-Natal	eThekwini
8. Western Cape	Cape Town
9. Eastern Cape	East London, Umtata and Gqeberha

The study method will comprise brief (5-minute) interviews with 50 randomly selected voters exiting at each of the selected voting stations. Voters will be asked questions pertaining to their experiences on Election Day and their responses will give indications about the operational efficiency of the IEC and used as an input in declaring the election free and fair. The results from this study will also assist the IEC in its preparations for future elections.

It is the service provider's responsibility to ensure the successful completion of the interviews in accordance with HSRC protocols and quality control procedures, within budget and the prescribed timeframes. In addition, it is recommended that Sub-supervisor/s be appointed for each of the provincial teams (Data Collector) and will be responsible for driving the teams to their respective selected voting station on the day of Elections, and supervising Data Collectors during the Election Day. The Sub-supervisor should ensure that the Data Collectors are at the correct voting station and complete the tablet-based questionnaire correctly.

The HSRC will conduct a training workshop for all the appointed service providers together with their Data Collectors at selected central sites as per **Table 2**. This training will be intensive; it will include simulations and evaluation, to ensure that every Data collector adheres to the required data-collection standards.

Training will be conducted mostly in English. Final screening of Data Collectors will take place at the end of the training to ensure that all has mastered the data-collection/administration procedures. All Data Collectors will be issued with branded HSRC name tags and bibs which should be worn at all times for identification purposes, to show their association with the ESS project.

The service providers are required to recruit Data Collectors. The Data Collectors must be a South African citizen, and be in possession of a valid South African Identification document or passport.

The Data Collectors should possess the following education level and skills:

- Have at least a matric qualification (proof of matric certificate is required);
