

Dr Glenn Tshweu is a Senior Digital Curator in the eResearch Knowledge Unit at the Human Sciences Research Council (HSRC). He holds a PhD in Information Science from the University of Pretoria and has over a decade of experience in research data management, digital curation, and research support services.

His work focuses on research data management, data quality, digital curation, and the preservation and discovery of social science research data. Dr Tshweu has a particular interest in developing frameworks and best practices that improve the quality, accessibility, and long-term value of research data. He is also actively involved in promoting FAIR data principles, digital scholarship, and the application of emerging technologies, including artificial intelligence, to enhance research data discovery and reuse.

Dr Tshweu regularly presents at national and international conferences and contributes to initiatives that strengthen research infrastructure, digital innovation, and evidence-based decision-making within the social sciences. Dr. Tshweu is also a member of the Golden Key International Honour Society
